

Human Powered

rotate, generate, play

The **NEW** RotoGen option for our PlayTronic games, panels and activities allows you to be free from the shackles of solar panels and the burden of battery changes. Wind the easy-turn crank to get a minimum 1:3 ratio of power generation to activity play and when combined with our custom developed Intelligent Monitoring System it allows us the flexibility to program our products to generate and playback in various ways to suit the activity and maximize efficient playback.

RotoGen Pedestal Piano

Freestanding stainless steel tube pedestal with RotoGen and 8x notes C to C with traditional piano sounds, capable of playing simple chords of up to 4 notes simultaneously.

Floor Piano

The Floor Piano features our fast responsive music panel electronics and waterproof low pressure activated mats. The standard piano can play one octave C to C with 4 note polyphonic playback.

Individual music sensor pads also available - contact us now for more information

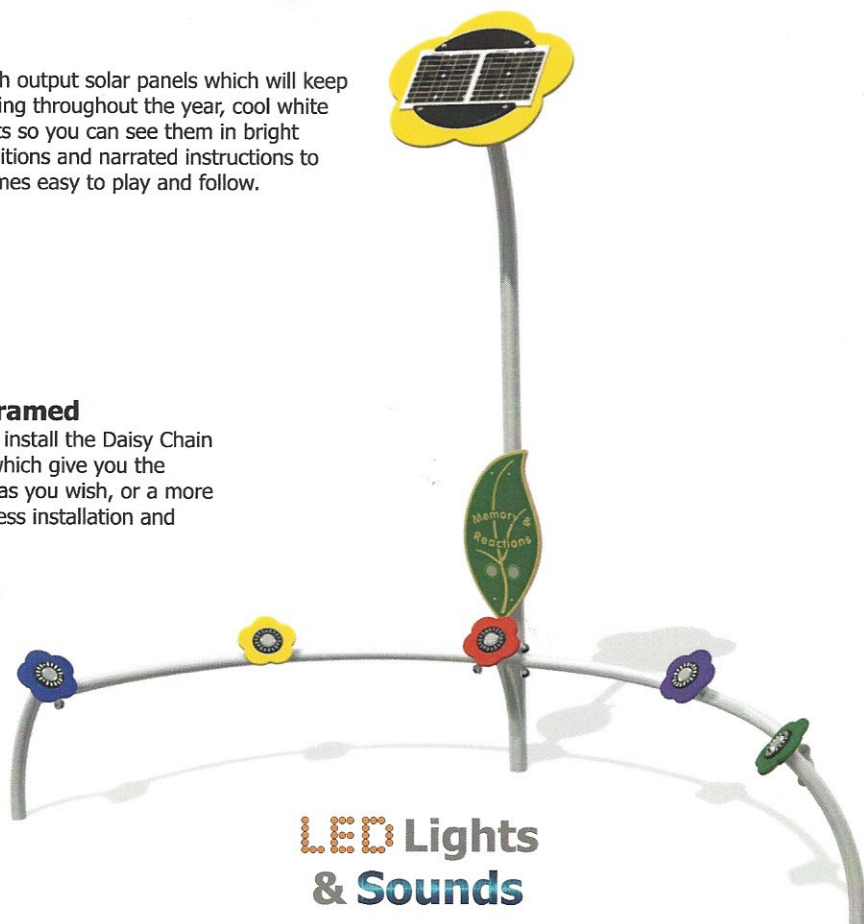

Solar Powered Daisy Chain Memory & Reactions Game

Featuring high output solar panels which will keep the unit running throughout the year, cool white LED light units so you can see them in bright daylight conditions and narrated instructions to make the games easy to play and follow.

Standalone Stations or Fully Framed

There are two different ways to set up and install the Daisy Chain unit, either individual standalone stations which give you the freedom to space and layout your stations as you wish, or a more compact, fully framed unit which requires less installation and easier cable routing.

- Active, fun fitness
- Switchable games
- Easy to play
- Cool white LED's for daylight visibility
- Tough, durable construction
- All year round solar power
- Available without steel work

Random Play and Pre-programmed Sequential Tune Options Available on ALL our PlayTronic Instruments

Percussion Musical Panels

Ally Tube Glockenspiel Panel

Musically tuned aluminium tube chimes, designed for children playing with supervision. All our musical panels have a superb high quality tone to them and most are supplied with 2x beaters attached via stainless steel wire ropes.

Ally Flat Glockenspiel Panel

Musically tuned aluminium flat chimes, designed for children playing with supervision. All our musical panels have a superb high quality tone to them and most are supplied with 2x beaters attached via stainless steel wire ropes.

Hardwood Xylophone Panel

Musically tuned hardwood chimes create a deep and rich sound, designed for children playing with supervision. All our musical panels have a superb high quality tone to them and most are supplied with 2x beaters attached via stainless steel wire ropes.

NEW Bells Play Panel

Musically tuned stainless steel bells create a unique sound, designed for children playing with supervision. This panel is supplied with 1x beater attached via a stainless steel wire rope.

Hand Chimes Panel (beater less)

The musically tuned aluminium chimes on this panel do not require a tethered beater to play, instead it has hanging HDPE cams that children can tap, push or flick towards the chimes to make a great sound.

Stainless Steel Tongue Drum

Musically tuned tongue drum made from 316 stainless steel with polyurethane anti-vibration bushes. This instrument can be played by hand or with a beater and creates an impressive oriental style sound. This panel is supplied with 1x beater attached via a stainless steel wire rope, but can be supplied without a beater if required.

Shaker Panel

The Shaker Panel has 2 different size, easy to turn, rotating drums which have 2 different gauge stainless steel ball bearings in them. By the way you rotate the drums you can create different rhythmic rattle sounds. This panel features shatterproof polycarbonate windows.

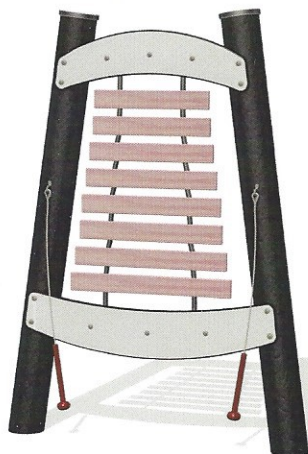

Bongos Panel

3 x different size and sounding bongos, which are attached to the panel at an angle for easy playing. With a great percussion sound the Bongos are virtually unbreakable and shatterproof.

Eco-Music

- Musically tuned
- Superb sound quality
- Anodised chimes
- Safe, tethered beaters
- Recycled plastic posts

NEW Eco-Bell Tree

Musically tuned stainless steel bells produce a nice ring with 1x beater attached via a stainless steel wire rope.

NEW Eco-Xylophone

Musically tuned composite chime bars with a really rich, hardwood style sound, comes complete with 2x beaters attached via stainless steel wire ropes.

Eco-Chimes

Musically tuned aluminium chimes with a highly durable multi-coloured anodised finish and 2x beaters which are attached via stainless steel wire ropes.

Eco-Tongue Drum

Musically tuned tongue drum made from 316 stainless steel with polyurethane anti-vibration bushes. This instrument can be played by hand without the need for a beater and has a rich, unique sound.

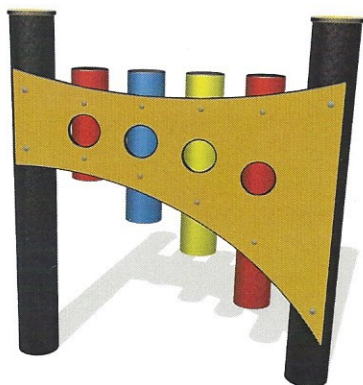

Eco-Chime Quartet

Compact unit comprising 4x musically tuned chimes mounted on a single post, with a beater which is attached via a stainless steel wire rope.

Eco-Bongos

Features 4x large diameter aluminium bongos, finished in a high quality coloured anodised coating with polymer tops. The Eco-Bongos are played by hand.

Eco-Rain Wheel

Large diameter and wide format rotating drum, which spins on a shaft that is mounted on stainless steel ball races. The drum contains hundreds of stainless steel ball bearings which rattle around making a rain type sound as they go.

Eco-Multi Chimes 4/8 Set

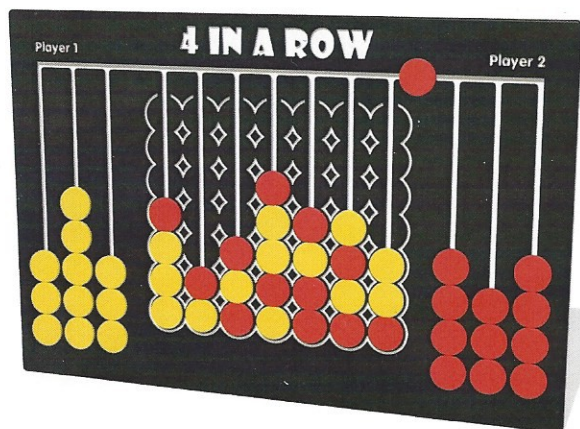

Individual, multi-coloured chimes mounted on their own post with a beater which is attached via a stainless steel wire rope. The Eco-Multi Chimes are offered in sets of 4 or 8 notes, but can be supplied in any quantity that you require for your specific project.

You can also specify a series of notes that will play back a specific tune when the chimes are struck in order.

Active and Moving Parts Panels

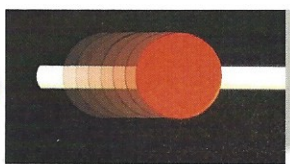

See all these panels working on

Giant 4 in a Row Game

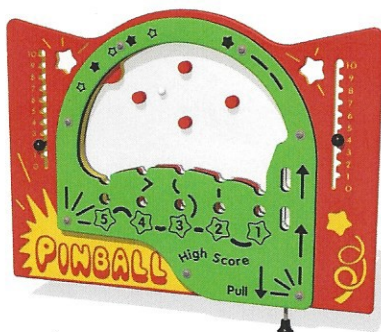

The Giant 4 in a Row Game Play Panel has a total of 48 movable red and yellow sliding discs that glide effortlessly around the panel. Because the discs slide in tracks, there are no loose pieces to worry about going missing or to put away and get out again each day. Other designs include 3 in a Row and Cats & Dogs.

with
sliding discs

Tile Slide Panels

The Tile Slide Game Play Panels are based on the popular tile slide puzzle that most of us have played with at some time. The Fahr approach to this game is to use the new sliding disc principal which makes the sliding of the tiles effortless and without snagging. Available in Snake, Frog and Butterfly puzzle designs.

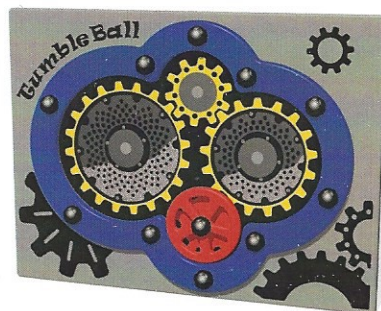

Pinball Panel

The Pinball Play Panel was designed around a purpose made stainless firing pin that has a nice easy spring loaded action and is totally safe for children to use without danger of entrapment. The panel also features a new sliding total score mechanism that is more compact and easier to handle. The Pinball Play Panel is a fun and challenging game to play.

Tumble Ball Panel

Turn the wheel to rotate the cogs. Watch and listen to the 1000's of ball bearings tumble over the pins. Featuring an easy to turn drive wheel, shatterproof polycarbonate window and stainless steel ball bearings.

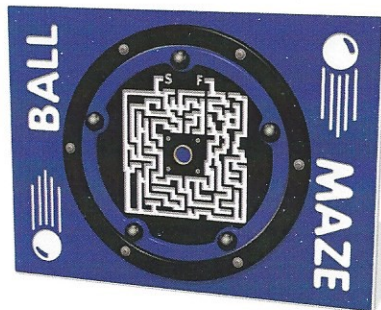

Make it Rain Panel

With large rotating drum. Watch and listen as hundreds of tiny ball bearings drop through the different levels. Featuring an easy to rotate centre drum section, 100's of small stainless steel ball bearings, shatterproof polycarbonate window panels and polycarbonate internal baffle plates.

Ball Maze Panel

Rotating maze with a stainless steel ball covered with a polycarbonate panel. Featuring an easy rotating centre disc section, large stainless steel ball bearing and shatterproof polycarbonate window.

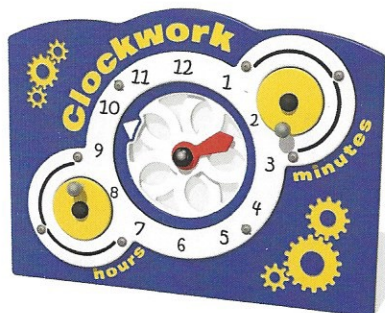

Twist Bearing Run Panel

With large rotating drum. Watch and listen as hundreds of tiny ball bearings run down the zig-zag channel, turn the drum around and watch them run down again. Featuring an easy to rotate centre drum section, 100's of small stainless steel ball bearings and a shatterproof polycarbonate window.

Airlock Cog Panel

Planetary gear panel with 6x rotating cogs safely located behind a polycarbonate window. Featuring an external rotating drive wheel, 6x rotating cogs, ring and shatterproof polycarbonate window.

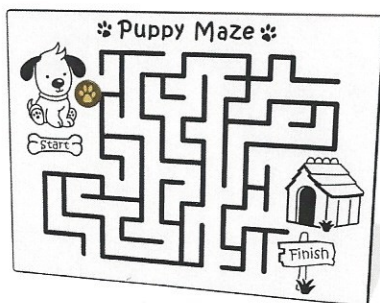

NEW Clockwork Clock Panel

This is a mechanical cog panel with "hours" and "minutes" rotating discs that turn cogs that move the hour and minute clock hands independently. All the cogs are safely covered by a shatterproof polycarbonate window.

NEW Solar Explorer Panel

This fun panel has sliding explorer discs to navigate around the panel and visit each of the 4x rotating planets, which turn to engage a new direction to another planet.

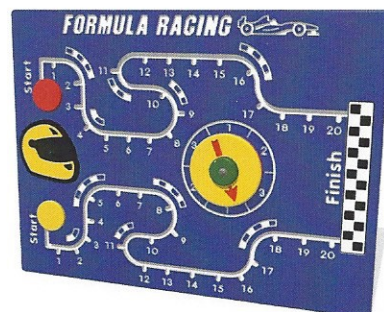

NEW Puppy Maze Panel

This is not a typical finger trace maze panel because it has a tactile puppy paw print sliding disc to navigate around the maze to get from the start to the finish.

NEW Formula Racing Panel

The Formula Racing Play Panel is a fun counter racing game featuring a 1-3 spinner and our t-slot easy glide sliding disc counters.

Daisy Head Panel

Turn the 2 rotating drums, watch and listen as hundreds of tiny ball bearings churn around in the Daisy Heads.

Featuring easy to rotate drums, 100's of small stainless steel ball bearings and shatterproof polycarbonate windows.

NEW Tangle Play Panel

The Tangle Play Panel is essentially our version of the famous "Twister" game. This panel should be installed with a surface with corresponding coloured discs painted onto the floor to complete the game (not included).

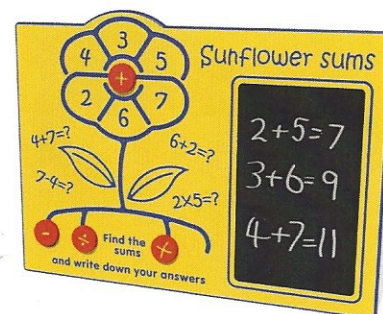

Tic Tac Toe Panel

Individually rotating "x" and "o" blocks give this version of the popular Tic Tac Toe/Noughts & Crosses game a smooth and positive feel. Manufactured using stainless steel spinner shafts and fasteners.

Sunflower Sums

With movable sliding sums discs, which means no loose pieces to worry about going missing, and an integral chalkboard for the children to write down the sums and answers that they can find.

NEW Pachinko Panel

The Pachinko Play Panel is our take on the extremely popular mechanical game originating from Japan. The panel has a pinball style spring firing pin which shoots the ball up into the Pachinko play area and then bounces off the numerous pins and blocks until it lands in one of the scoring slots.

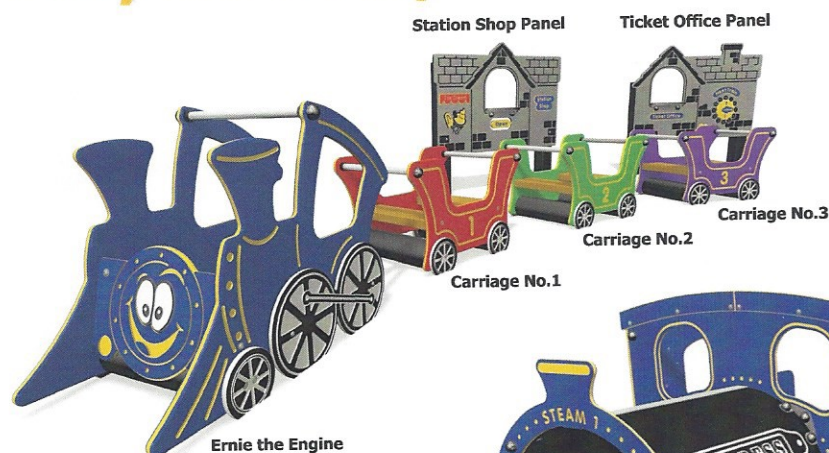

Village Shop

This fun activity role play panel has a shop counter top, plant-on graphics and rotating "open" and "closed" sign.

Early Years Play

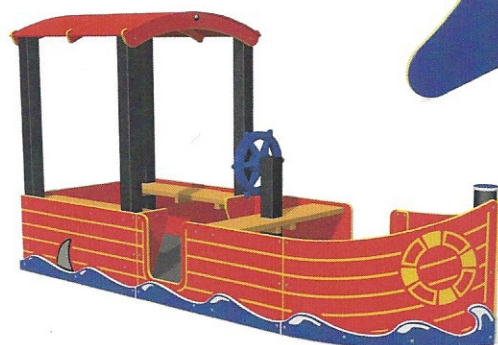

Early Years Express Train

Modular set of train and station accessories for very young children. Each unit is built using high quality materials and unlike most of the competitive products available in the market place, the Early Years Train Set products do not feature any timber, so they will not rot, crack, split or develop splinters. Available to buy individually or as a complete set.

PlayTronic Sounds Available

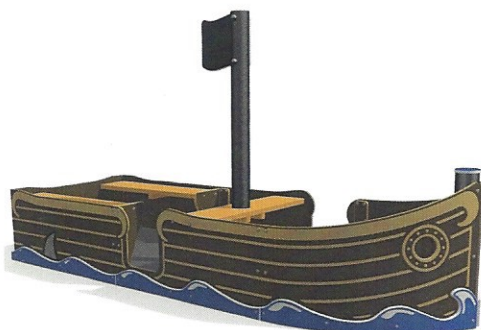

Fishing Boat

This modular construction boat can be made in different sizes and features built in seating, slip resistant floor, plant-on graphics, ships wheel and a roof unit

Yellow Sub

The Yellow Sub features shatterproof polycarbonate bubble windows and bubble mirror, spinning sub wheel, bench seat and plant on sea graphics.

Pirate Ship

This modular construction boat can be made in different sizes and features built in seating, slip resistant floor, plant-on graphics, ships mast and pirate flag.

Fire and Rescue Truck

This bright, colourful and fun play unit will inspire children's imaginations. It features a slip-resistant floor, dashboard with steering wheel, bench seat, steps and a stainless steel fireman's pole.

The Fire and Rescue Truck is also available with a PlayTronic Sound Unit to add more play value and fun to the unit.

PlayTronic Sounds Available

Driftwood Den

Wendy Hut

Play Hut

Play Huts

Imaginative spaces for children to play and socially interact with each other. Each unit has a bench seat and a counter to enhance the role play and because each unit is manufactured from HDPE, it will be safe and free from cracks and splinters. You can also customize your play huts to your specification, including your own graphic designs and colour options.

River Run

The River Run water game is a great new product that will give children hours of fun and allow them to learn about water and the way it flows. The river bed is constructed with routed features and layered HDPE contours, along with a dam, bridge and gate built in to the structure to complete the many play possibilities.

Sand and Water Basin

Sand and water play are always popular with young children and with this attractive and sturdy HDPE table unit you can fill it with either. The Sand and Water Basin also comes with a removable cover to keep out animals and debris when the unit is not in use.

Because it is constructed from HDPE materials it will happily stand outdoors all the time. It is easy to clean and will not rot, crack or splinter like timber products can.

With Cover

Nessie Play Elements

Nessie Play Elements are a fun themed set of activities for school playgrounds including seating, climbing, activities, music and storage. The activity sections of Nessie can be specified with almost any of Fahr's Play Panel activities and because Nessie is modular, you can buy what you need now and you can add to it later.

Nessie Head Chalkboard

Nessie Play Picnic Table

Nessie Over and Under Tunnel

Nessie Climb-Over Storage
